We give the proceedings of the special term of the county court this issue. It was crowded out of our last. Court is in session again this week.

A very fine lodge of the Triple Alliance was organized on Tuesday night. One commendable feature of this order is that ladies are admitted to full membership, and another is that the insurance feature is not confined to only those who die, but living members have a chance also to realize something for their investment.

How many of the believers in the "old sign" of seven rainy Sundays after a rainy Easter, are there that will remember a year hence that the sign failed last Sunday? Those old "saws" need revision badly.

We have received a copy of the New Orleans Times-Democrat Almanac for 1883. It is a book of 188 pages filled with statistics and instructive reading matter, with tables of population, production etc., of great value for reference.

Mr. W. L. Smith, recently in the loan business at this place with Mr. Hollister has located and stuck out his shingle at Shelbyville. We notice his announcement in the Herald.

The following are the officers elected and installed in the new order—The Triple Alliance of this place. Patriarch Dr. N. Wilson; King, Wm. Kinoy; Chief Captain, J. W. Tinsman; Capt. of the Guard, J. The firm of F. J. Tice & Co., of Greentop have something new to say to our readers in this issue. Don't fail to read their advertisement on our eighth page. They evidently mean business.

Miss Ella Caskey, was visiting Kirkville friends last week and favored us with a call Saturday afternoon. We learn Miss Caskey contemplates a summer visit to Minnesota, and will start sometime the present month.

Now Here.

Dr. Dunbar, the noted and remarkably successful oculist is now here and has rooms at Pools. He will remain until the 18th, when he leaves to fill one other appointment before departing for Colorado. He visits the mountains on account of his wife's health. We have been noting the doctor's career, as indicated by notices in our exchanges for some time, and must say that he appears to have wonderful success in his specialty—diseases of the eye. Some of the cures reported are truly marvelous, and in an earlier age, the doctor would doubtless have been looked upon as a worker of miracles. The Unionville Republican, the LaPlatte Press, the Macon, Brookfield and Milan papers and numerous other Journals mention numerous cases which the doctor has treated with varying success. In some cases sight has been restored where it was missing for nearly fifteen years. The doctor has a scrap book full of such notices and certificates of cures which those curious to know, can examine for themselves. One case mentioned is that of Miss Sedalia Brown, of Sticksleville, who was 16 years standing and a very bad case of granulated sore eyes. Persons afflicted with inflammation of the eye should not fail to call upon the doctor before he leaves. If he tells you he can cure you, you may rest assured he can do so. There are cases now here from a distance of 75 miles, and others are coming in daily. Call and see him.

The Kirkville mills have opened out a Flour Store in the Coop building, where you can purchase from one sack to a car load of choice family flour, at mill prices. Farmers, mechanics, and in fact everybody can save money by purchasing of first hands. Choice Flour only \$1.00 to \$1.50 per sack. Bran, Graham Flour and ship stuff for sale.

You will find the N. C. Thompson Cultivator and the New Departure Tongueless Cultivator at Link & Brasfield's.

Seed Corn!

Those desiring Seed Corn that will grow, will do well to call on Link & Brasfield. They are just shipping in a choice lot that was carefully selected by Mr. Link especially for seed. n33 ti

New Order.

Mr. J. A. Tinsman is appointed local Agent at this place for the order of Triple Alliance. He will be glad to see the citizens of this community and make explanations of the order and receive their applications. If you want to join a nice organization where ladies and gentlemen can equally enjoy its benefits you cannot find anything better. Call and see him.

A. B. BASVE,
Special Agt. for Adair Co.,

No first-class farmer will be without a Basve's Creek Broomer on his plant. Link & Brasfield.

Normal Notes.

This has been examination week, and interchange of the rests has been, "Well how'd you come out?" "Knock-out a 100." "If it hadn't been just for one thing I'd have have made a hundred." "I pulled thro' straight," and other such expressions. All look tired and no doubt will enjoy the vacation. School begins again on April 10th. As is usual at close of third term many students are departing for home where they go to engage in farming, teaching, &c.

The balloting for officers held in the Zetosophian Hall last Friday resulted in the election of Mr. Nick Pemberton for President, and Miss Anna McPherson for Secretary. The other societies held their election Thursday afternoon. Will give the results next week.

Last Tuesday marked the one hundred birthday of Washington Irving. Although students were very busy in examinations the event was duly observed. After singing by the choir, W. W. Banks of the "three" introduced the exercises by reading a brief but interesting biography of Irving's life. But the two years class bears the palm this time in the way of celebrating birth days of authors. Misses Sue and Anna McPherson, Fannie Turner, and Laura Haden, Messrs. Riley and Schmidt gave from the rostrum a very entertaining dialogue specially arranged for the celebration of Irving's birthday. Descriptions of Irving's early life, his home at Sunny Side, his travels in England; comments of his contemporaries upon his writings; short stories from the "Sketch Book," &c, were very skillfully interwoven here and there in the dialogue. Each acted the part assigned him with great credit, and all agreed in pronouncing it the best treat we have had in the line of celebrating author's birthdays. Miss Alice Cary is the poet whose birthday is to be celebrated next. The three years' class is booked for the dialogue on that occasion.

Prof. Nason has been able to be in school all this week.

Prof. Blanton delivers a lecture at Edina to-morrow.

Miss Kate Baker read from the Philomathean Journal last week: "Next Sunday is the first day of April. All those desiring to learn something in regard to the origin of All Fools' Day, look in the 18th chap. of Daniel."

Several of the poor unsuspecting Philomatheans, among them the worthy president very innocently took down their dusty Bibles, turned the leaves till they reached the Book of Daniel, and then sought in vain for the thirteenth chapter. Finally it began to slowly dawn upon them that they had been cleverly duped.

Greentop Gatherings.

GREENTOP, April 3.—Times are getting brighter and farmers are beginning their spring work.

W. A. Meddison, president of the P. L. M. Coal Co., was in town one day last week, on business.

Judge Wittmer is at Lancaster, this week, attending county court.

Mrs. E. Owen and Mrs. John Davis returned last week from Kansas, where they have been visiting their father and mother for some time.

John Roberts and family have moved back to his farm from Greentop. John says he will try farming a while longer.

A letter has been received from Thos. Stewart, from California, who departed from this place a few days ago to California. He says himself and family got through all right, but he does not know how he will like California.

Samuel Novinger has his saw mill set up and it is now in full blast. Mr. Novinger knows how to run a mill.

Our school election, to-day, passed off quietly, and the following school directors were elected, A. M. Lind, F. J. Tice, Geo. Sanford and John Low.

A letter was received, this week, from J. W. Hutchinson, who moved from this place some time ago. He states that himself and family are located at Donovon, Ill. He has gone into the dry goods business, and says that his trade is running from thirty to fifty dollars per day.

Mrs. Joe Lind, formerly of this place, out late of Hamilton, Iowa, is here this week on a visit to relatives.

Rural Dell Notes.

[The following was not received in time for last issue. It was dated March 24th. We use only a portion of the items.]

When it gets warm enough work will commence in this vicinity in earnest, for nearly every one calculates on planting a larger crop than ever before.

Miss Clara Englehart closed a very successful term of school, on the 23d. She has taught nine months. School closed with a general examination, and great progress on the part of the pupils was observable. The arithmetic class finished Ray's third. The school exhibited the best of drill and the teacher handled them like a general, and the very smallest pupil can sing like a nightingale or a bull-frog and never dash on the tune. They have splendid use of the chalk and blackboard.

The dinner, of which your correspondent claims to be a competent judge, was a regular feast, and consisted of more than could be eaten. The remnants went to the needy.

Rumors hint that we are about to lose Miss Clara as a teacher. Lady teachers, who conduct a successful term of school in this district always quit teaching and take a lay to raise. If you do not believe it, ask the Cashier of the Savings bank.

Wilson Whittlings.

[GRAPHIC Correspondence.]
A School exhibition was held at the Star School house on Saturday March 31st which was ably conducted by Mr. James Chadwell which we understand was a success both in the number in attendance and performances.

Lem Johnson is cutting his hedge fence and is making a great improvement in the appearance of his farm.

Will Sohn sold a lot of stock steers to Ambros Black recently. We understand he obtained four cents per pound for them. "Will has for some time past been building and has now completed a stock and hay barn which is designed especially for this purpose. He has arranged about thirty stalls on the lower floor for cattle in a convenient manner for feeding. The upper floor has a large storage capacity for hay. He has it so arranged as to raise his hay to the mow with a patent fork from the load or shock, by horsepower. Any one who contemplates building a stock and hay barn might do well to take a look at his barn before building.

New Baden Springs.

Trade dull.
Weather—snow, rain, fair and frosty—a little of all sorts.

Roads bad. Farmers are all alive improving their farms.

Blakely, Peirce, and Cockeram are clearing and fencing more land, hurrying up work in anticipation of an early spring and good crops. Wheat looks well. Stock thin in flesh.

Mrs. Johnson has bought the Johnson house store and half interest in the Hammon's store at New Baden.

Mrs. McVicker and family are staying with T. Johnson. They think of locating here if the water does her good.

Six, if not more are stopping with Mr. Peirce. I have not yet learned their names. They are from Iowa. Some intend to stay during the summer, others for a week or two.

I Stone the old reliable blacksmith is again located at New Baden and intends to stop. He will do work as good and cheap as anyone.

Ed Loso is still found at his post, the Post Office and store, dealing out mail, dry goods, etc.

Visitors are not so plentiful at present, yet there are a few every day. A day or two of fine weather and things look up. Improvements are being made on the grounds, and in the hotel.

Aqua.

J. H. Markey keeps The New Grocery south of Savings Bank, and nearly opposite City Hotel, where you will find a little of everything rich, rare, and racy. He keeps a stock of Staple and Fancy Groceries, complete in every particular, though not in large quantities to become old and damaged and a drug in the market but receives a fresh supply every week as the public seems to demand. His prices defy competition, the business being carried on with the most studied and careful principles of economy, for the benefit of his customers. Having low rent to pay and no clerks to support he is able to compete with any similar house in town.

Local Markets.

General business has been very dull the present week.

Butter, except the very poorest packed, has been scarce and in demand.

We quote a few of the most prominent articles at their buying price:

APPLES—Green per bus 40 to 50 cts, BUTTER—Good to choice, 20 to 22 cts. BACON—Country, 11 to 12 cts.

EGGS—1 1/4 cts. CHICKENS—3.00 per dozen. POTATOES—60 to 75 cts. TURNIPS—20 cts.

MAPLE SUGAR—13 to 15. MAPLE SYRUP—1.00 to 1.25. HAY—Same as last week.

CORN—50. OATS—32. CATTLE—Good order 6.00 to 6.25. GOATS—Shipping steers, 4.00 to 5.50. (Wool, Pelts, Feathers, Rags, Etc., Same as last week.

"DELIGHTFUL."

No Medicine Can be Compared to Marsh's Golden Balm.

"Last month I took a severe cold. I coughed terribly and could not sleep nights. I had a druggist prepare me some cough syrup, but it did me no good. I then tried MARSH'S GOLDEN BALM and was cured at once. It is a delightful remedy."—[Henry L. Cook, Sedalia, Mo.]

"I have used many cough remedies in my family, but none that could possibly be compared to MARSH'S GOLDEN BALM."—[F. E. Anderson, Leavenworth, Kansas.]

MARSH'S GOLDEN BALM, the famous throat and lung medicine, and MARSH'S GOLDEN BLOOD & LIVER TONIC, the great blood purifier and liver corrector, are for sale by Gray & Co., druggists Kirkville. Large bottles 50 cents and \$1.

Considerable interest was worked up in the city school election partly owing to the peculiar proposition submitted in regard to the purchase of a school house site, and partly by the race for School Commissioner. The vote on School Commissioner in Kirkville district stood as follows: R. R. Steele 89; Frank Plopp 228, and A. P. Vaughn 85. On school directors; J. Douglas 382, H. Eckert 391, G. F. Williams 350; Scattering 17. The proposition submitted as follows: Two school houses—yes 99; no 141; one school house—yes 167, no 129. Tax levy to purchase a new site—yes 79; no 226.

Plantation Philosophy.

De fool is sometimes de wise man's best adviser. A idiot once tole me not ter banter a man. I didn't take his wararin' an' got whipped.

I used ter think dat a man what would rush into danger was brave until de wust coward I eber seed libberately tuck up a pistol and killed his self.

Your best frien' speaks good ob anything won't hab nigh so much influence on yer mind as yer wust enemy what speaks ill ob it. It is human natur ter believe de wust.

When it comes to a question ob choice, I'll alers take de coon for a partner fore I will de 'possum. De 'possum's meat may be better, but he's de rankest hypocrit I eber seed.

When a 'oman finds she can't be regarded as putty, she den fall back ob de next best gift. Everything teaches dat wid her, beauty is de most ter be 'sired. De cause ob dis is wid beauty she claims de men, in claimin' men she gets de world. A 'olman would rather hab consumption an' 'pear pale an' an' interestin' dan ter be a libin' monument ob health.
